

Lost and Found | Part 02

Texto para mineração e treinamento:

The Jensions camped in an old RV that Mr. Jenson had to repair during **just about** every trip. Last season, a gasket on the toilet had **given out**, causing a leak the Mr. Jenson spent hours fixing. He'd had to travel to the nearest RV specialty store to replace the part. This year, there seemed to be some problem with the RV's electrical system. The Jensions had tried everything they could think of, and they couldn't get the air conditioning to run. Mrs. Jenson had decided to walk the campsite, looking for RV campers that seemed to have a good deal of experience. Maybe someone had had this problem before and knew how to fix it. Mr. Jenson stayed at the RV, trying different fuses, checking plugs and connections, and generally tinkering with anything he thought might relate to the problem. He looked up to **check on** the boys every time he thought about it.

Texto linha a linha para aula:

The Jensons camped in an old RV that Mr. Jenson had to repair during just about every trip.

Os Jensons acamparam em um trailer velho que o Sr. Jenson tinha que consertar durante quase/praticamente todas as viagens.

Last season, a gasket on the toilet had given out, causing a leak the Mr. Jenson spent hours fixing.

Na última temporada, uma vedação/gaxeta no banheiro tinha cedido/estragado, causando um vazamento que o Sr. Jenson passou horas consertando.

He'd had to travel to the nearest RV specialty store to replace the part. Ele "tinha tido que viajar" para a loja especializada em trailers mais próxima para substituir a peça.

This year, there seemed to be some problem with the RV's electrical system.

Este ano, parecia haver algum problema com o sistema elétrico do trailer.

The Jensons had tried everything they could think of, and they couldn't get the air conditioning to run.

Os Jensons tinham tentado tudo que eles conseguiam pensar (em), e eles não conseguiram fazer o ar condicionado funcionar.

Mrs. Jenson had decided to walk the campsite, looking for RV campers that seemed to have a good deal of experience.

A Sra. Jenson tinha decidido caminhar pelo acampamento, procurando por pessoas acampando em trailers que parecessem ter uma boa dose de experiência.

Maybe someone had had this problem before and knew how to fix it.

Talvez alguém tenha tido esse problema antes e soubesse como corrigi-lo.

Mr. Jenson stayed at the RV, trying different fuses, checking plugs and connections,

O Sr. Jenson ficou no trailer, tentando diferentes fusíveis, verificando plugues e conexões,

...and generally tinkering with anything he thought might relate to the problem.

...e de modo geral fazendo pequenos ajustes com qualquer coisa que ele considerasse que pudesse estar relacionado com o problema.

He looked up to check on the boys every time he thought about it.

Ele olhava para cima para verificar os meninos toda vez que ele pensava sobre isso.
